Javier, Celene B.

Orga, Jean Fernando V.

Agapay: SDRRM System Documentation

Agapay is a digital platform designed for the *School Disaster Risk Reduction and Management (SDRRM)* office of Bulacan State University (BulSU). The system aims to provide rapid information dissemination, official announcements, and emergency hotline access to ensure the safety of the campus community.

1. User Interface (Client-Side)

Home & Navigation: A centralized dashboard providing a seamless overview of all safety updates.
